

SUCCESS STORY

Asian Paints has adopted Foyr Neo in its interior design service

Asian Paints Limited, the largest paint and coatings company in India, has joined forces with Foyr to offer expert interior design capabilities to clients. The company uses Foyr's software in its interior design sector, BHS, to easily and efficiently design incredible spaces and take high-quality renders.

Asian Paints has been a leader in the paint industry since 1967. As the company has grown, it has also developed business interests in home decor products and services like modular kitchens and bath fittings. It established its interior design sector, Beautiful Homes Service (BHS), to provide clients with an end-to-end experience including interior design, project management, and execution.

Foyr is thrilled to announce this partnership and to work with Asian Paints to deliver beautiful interior designs to clients worldwide.

"Asian Paints is leveraging Foyr for its interior design service, BHS. Our team of 80+ designers use Foyr for bringing the dream homes of customers to life. The team has significantly benefited from the large asset catalogue, easy designing and fast rendering in Foyr Neo."

BHS team,
Asian Paints Ltd.

About Foyr

Foyr's mission is to empower those who shape the world of design and real estate with state-of-the-art visualization solutions. Their cloud based design software, Neo, is revolutionizing the way people design, plan, render and collaborate.
